---

The contributions from the Technical Working Group members from various organizations are gratefully acknowledged!

# Goals for the Co-development of Groundwater Data Reporting Formats

-  Reduce challenges related to reporting groundwater data
-  Streamline data reporting and consistency under SGMA
-  Support local agencies in complying with SGMA regulatory requirements
-  Facilitate and promote data coordination
-  Inform regulatory decisions by consolidating existing data reporting formats
-  Improve overall data quality

# Data Reporting Format Project

Goal: Co-develop groundwater data reporting formats

What we've done

1. Developed a network of experts and an interested group for co-learning and co-production.
2. Identified groundwater data reporting challenges and recommendations
3. Developed groundwater elevation and well characteristic data reporting formats and crosswalks
4. Developed Pilot Study Platform and documentation on GitHub/GitBook
5. Identified needs for universal well identification program

Contact via [info@cawaterdata.org](mailto:info@cawaterdata.org) for more information

# Data Reporting Format Project

Goal: Co-develop groundwater data reporting formats

What's  
next?

1. Targeted engagement with interested stakeholders to enhance outcomes
2. Project website and factsheets
3. Raising awareness at conferences, briefings, and project materials
4. Continued coordination with the technical working group
5. Supporting adoption of new data reporting formats

# Thank you!
