Q1: On Development Experience

- How was the experience of involving WTMP development – personally, and professionally?

Q2: WTMP is to Reclamation

- What do the development and deployment of WTMP mean to Reclamation organizationally in fulfilling its mission, project operations, and day-to-day activities?

Q3: WTMP Looking Forward

- What do you see WTMP in 3 to 5 years from now - technologically and functionality, as well as influence on Reclamation's practices?
