Data Fuels Our Work

Federal Operations Make Our Work Possible

Not a complete list!!!!

Trump officials gut 25 centers that monitor flooding and drought in the US

White House orders closure of USGS water science centers, which shares data with weather service for flood warnings

Former Weather Service Leaders Warn Staffing Cuts Could Lead to 'Loss of Life'

5 Reasons NOAA and NASA Cuts Will Be Disastrous for Everyone in the US

US weather forecasting is more crippled than previously known as hurricane season nears

Trump Administration Cuts Research Funding, Claiming It Creates 'Climate Anxiety'

Trump cuts target world-leading greenhouse gas observatory in Hawaii

Scientists say NOAA cuts by Trump undermine improvements in hurricane forecasts

White House Proposal Could Gut Climate Modeling the World Depends On

Trump administration dismisses nearly 400 scientists working on congressionally mandated national climate report

How cuts and \$1 payment limits are making federal jobs harder

Experts say US weather forecasts will worsen as DOGE cuts mean fewer balloon launches

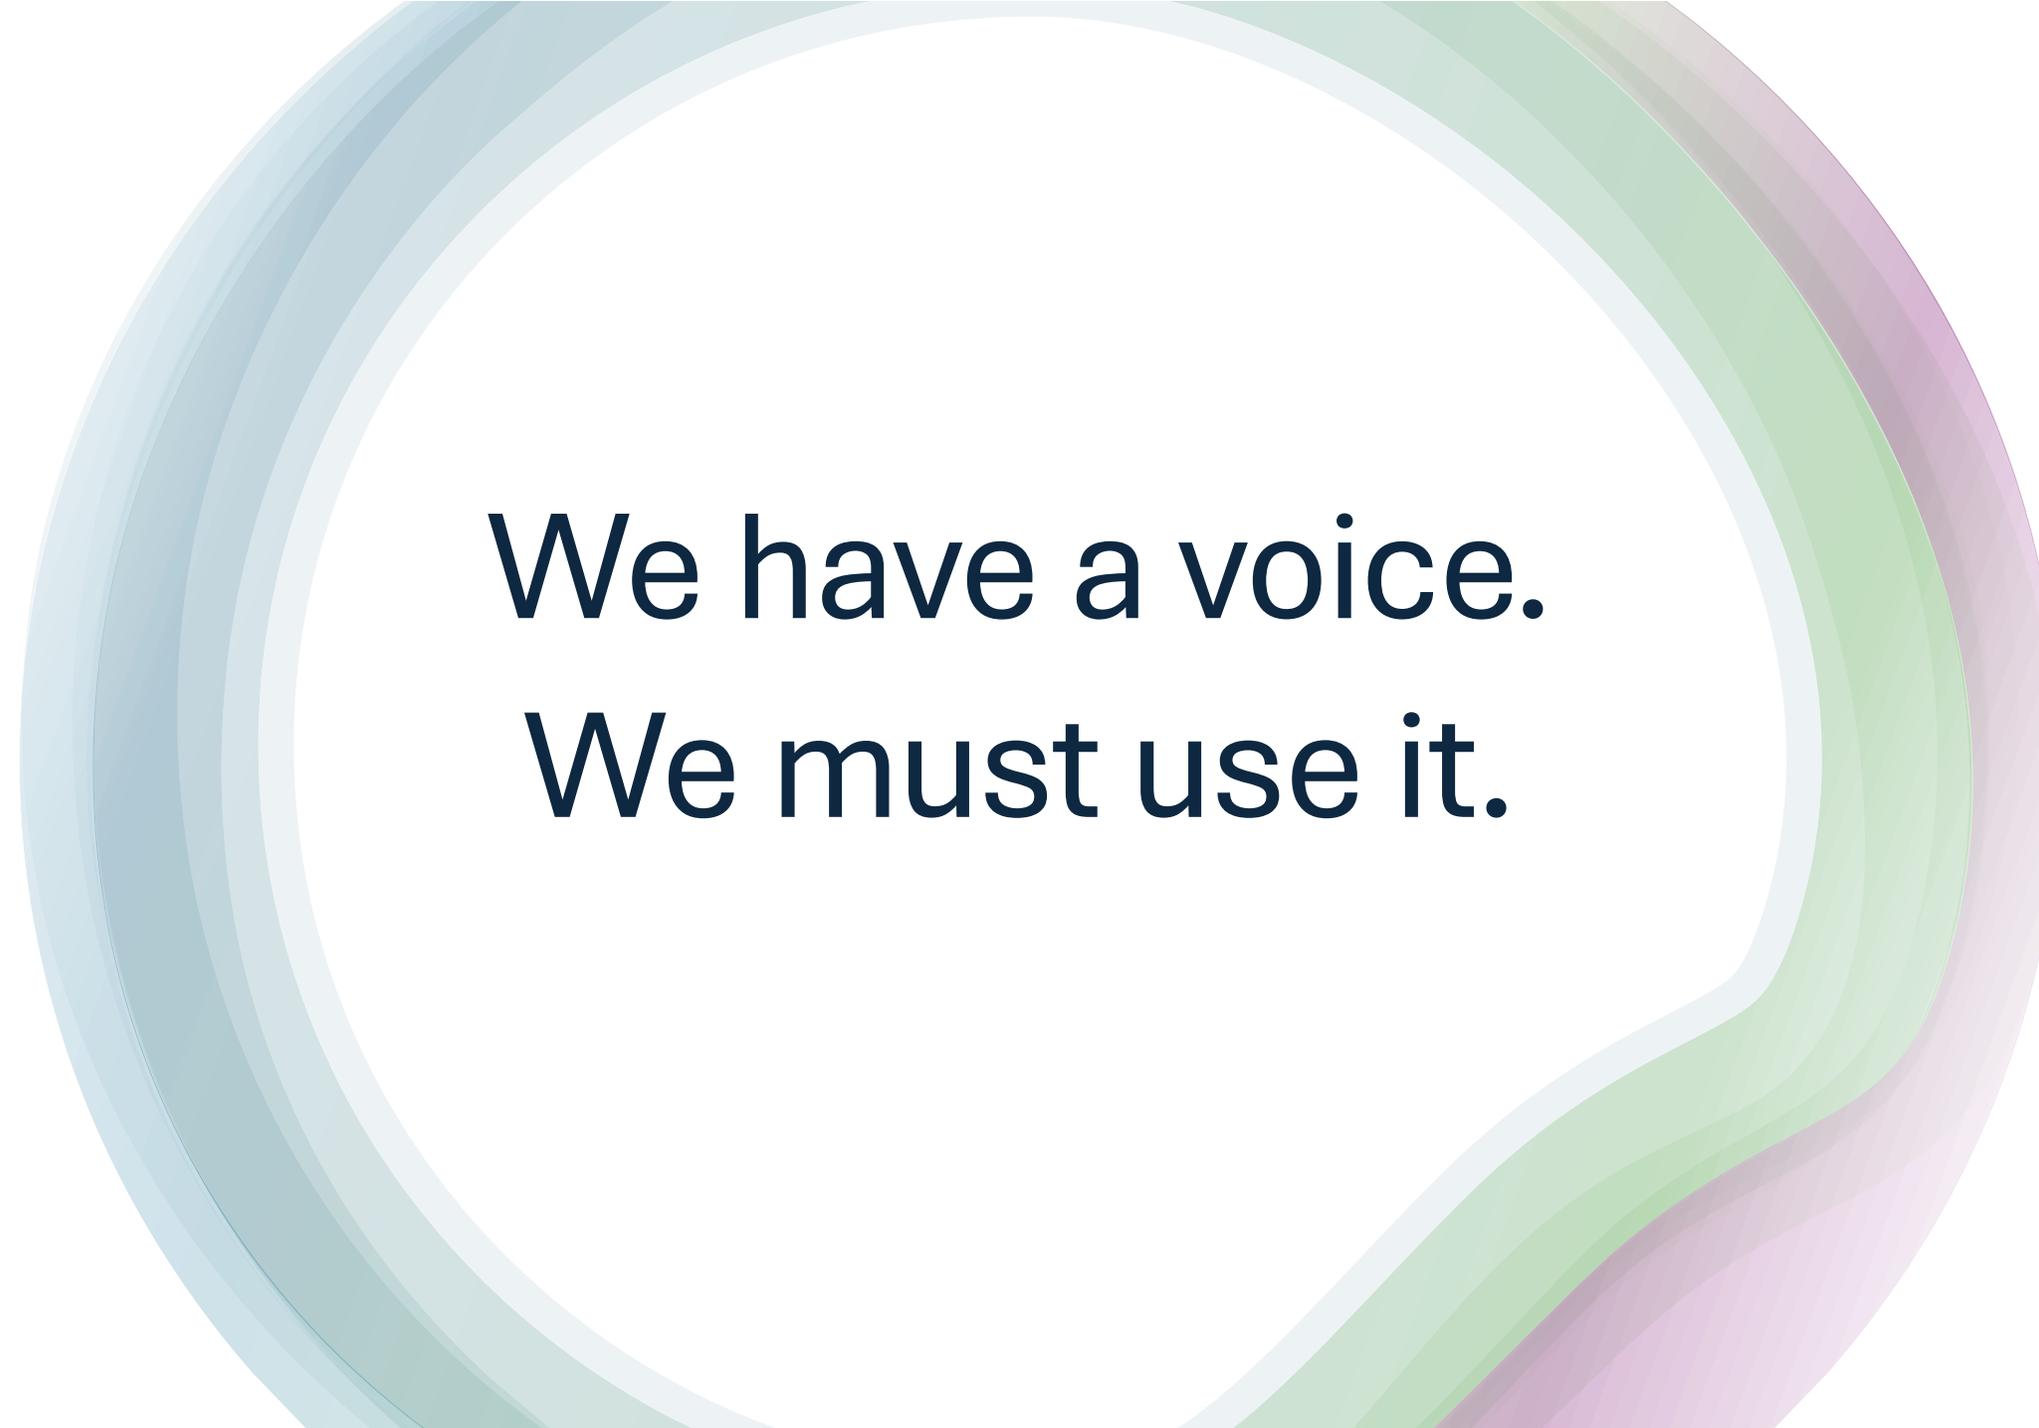

U.S. Government to Stop Tracking the Costs of Extreme Weather

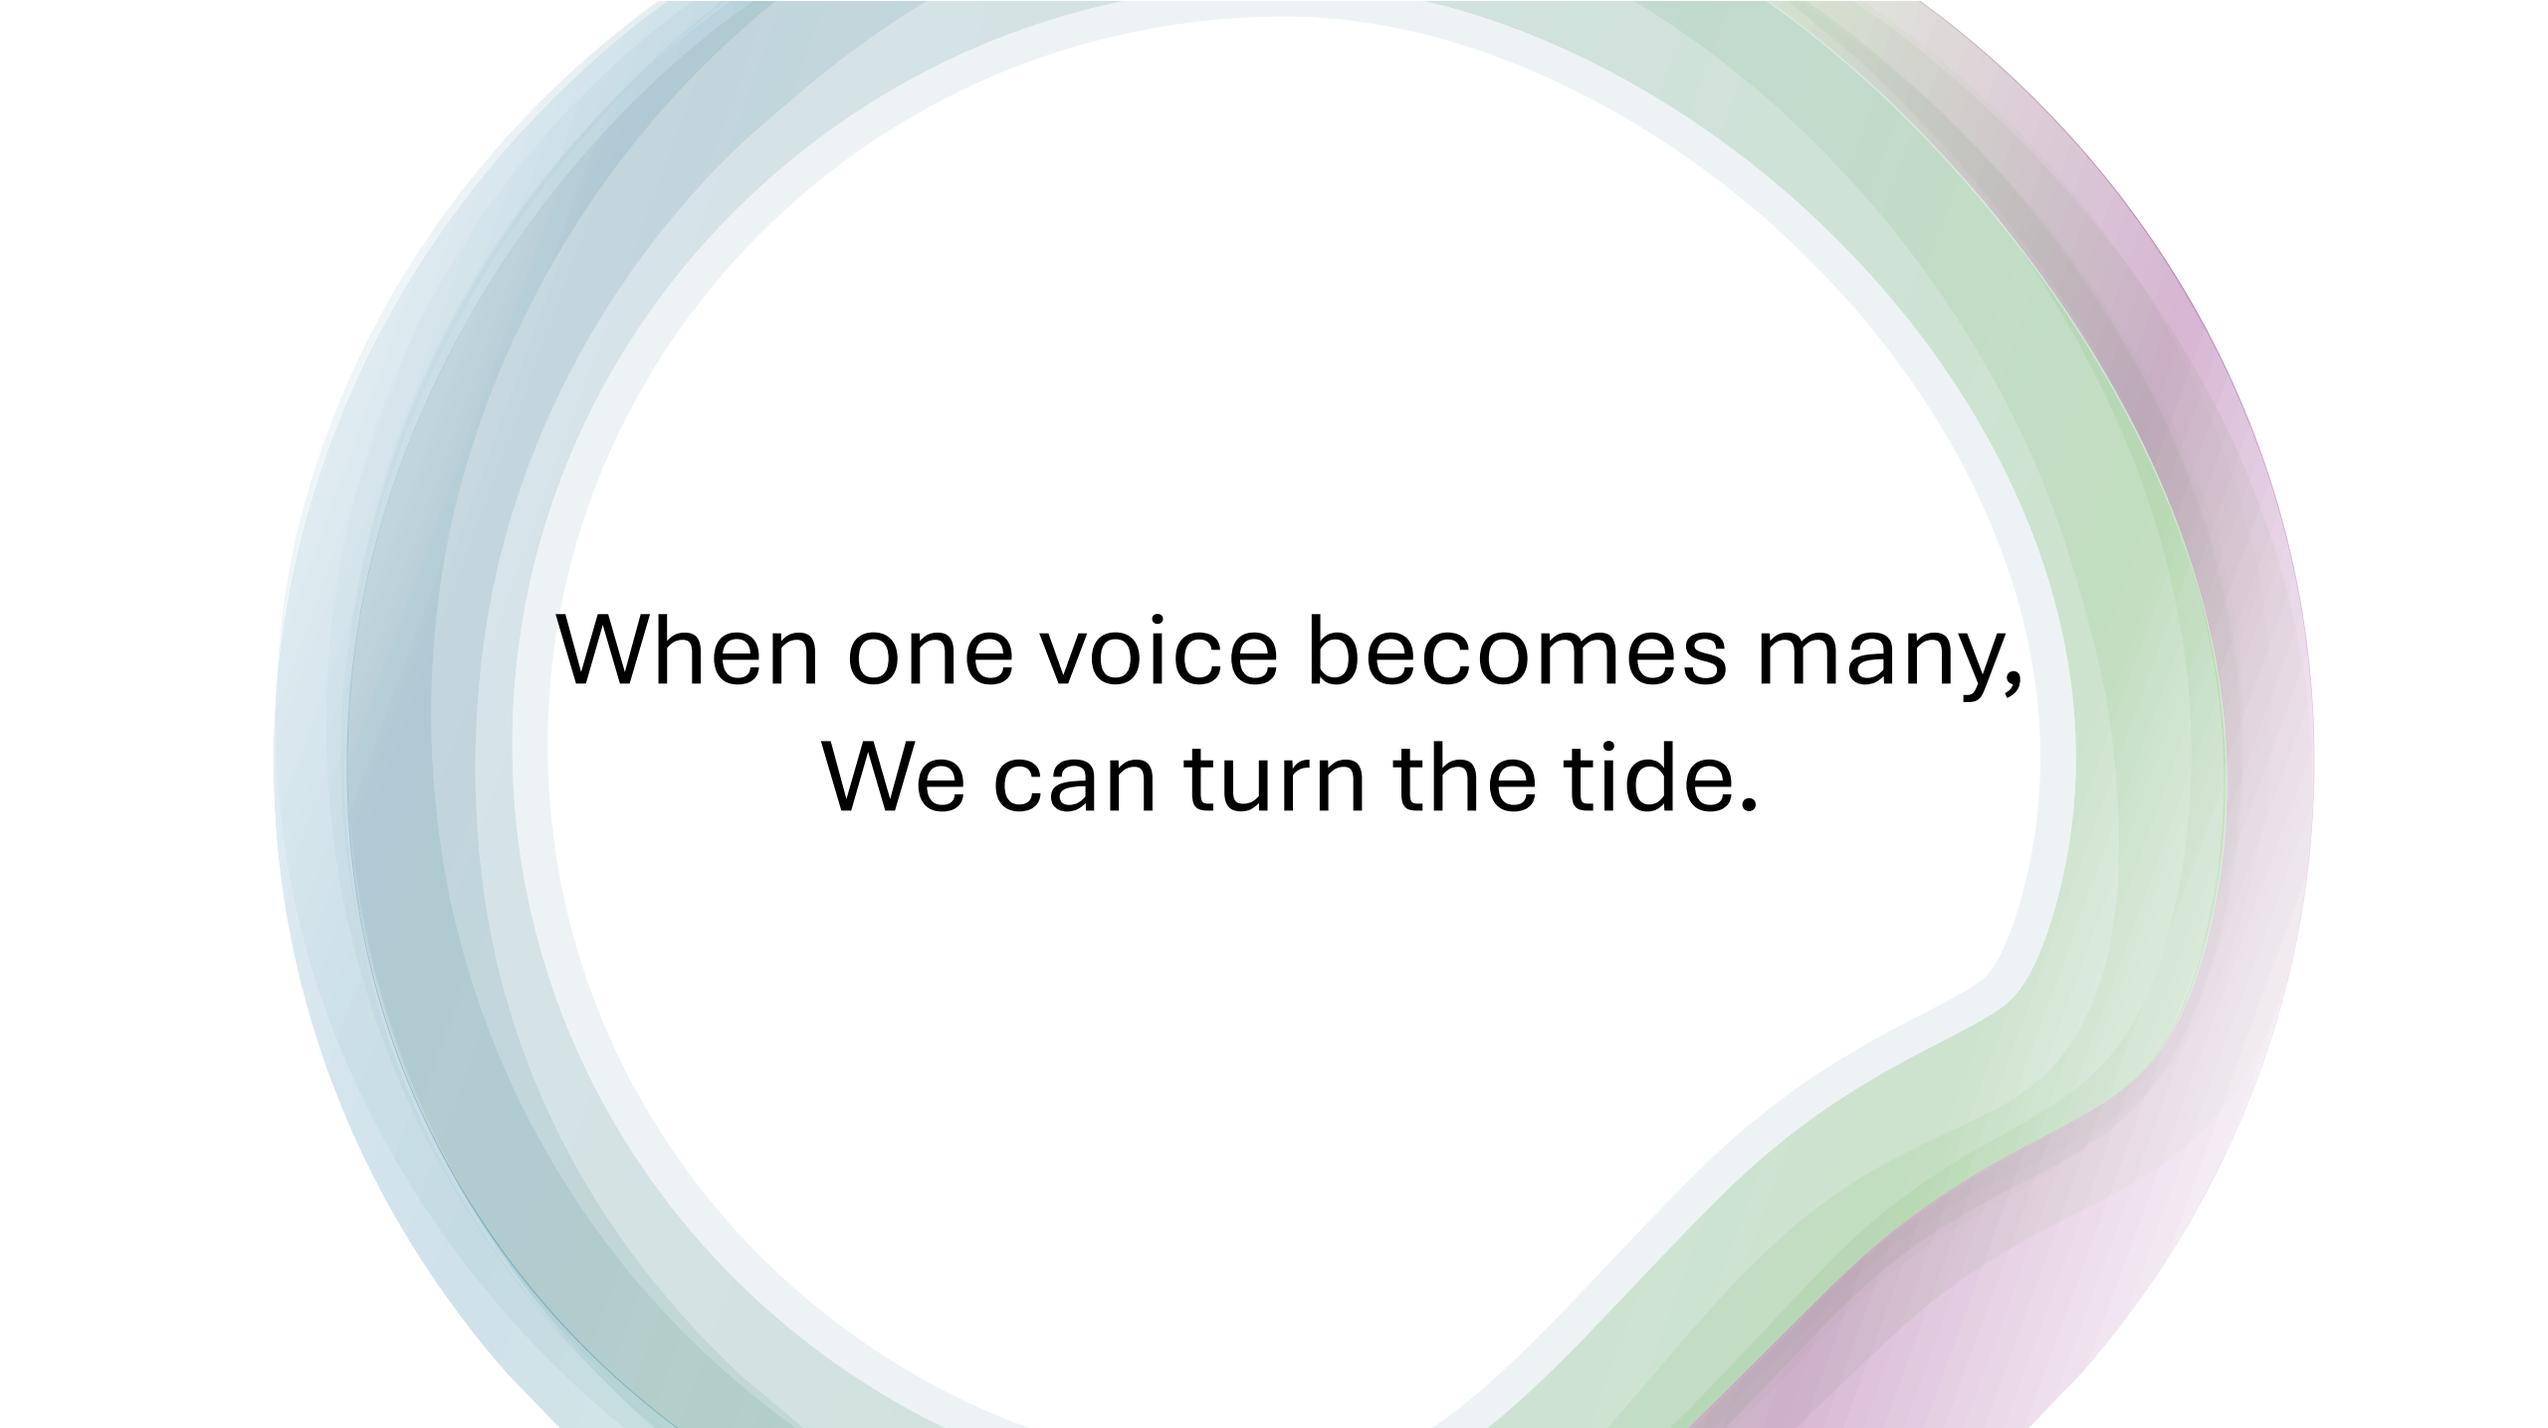

It would be harder for insurers and scientists to study wildfires, storms and other “billion dollar disasters,” which are growing more frequent as the planet warms.

**We may lose a generation of
science and engineering
talent.**

**We have a voice.
We must use it.**

When one voice becomes many,
We can turn the tide.
